SUMMIT 2024

Maitland is the "Can Do City", and we are the "Can Do Chamber".

The Maitland Business Chamber exists to:

- Support & lobby on behalf of its members & the local business community.
- Encourage business growth & prosperity.
- Promote the city of Maitland and its surrounding region to investors & businesses.
- Help members learn & grow by connecting with their peers & the community at networking functions & events.

There is no better place to do business than Maitland.

After the success of the last three Small Business Summits, The MBC is planning the biggest Summit yet, for 2024. The Maitland Business Chamber is dedicated to providing the knowledge and resources our business community need.

Maitland Business Chamber will invite members of the Chamber and the extended business community to explore the range of resources and services offered to businesses from the state and local governments as well as local and national organisations.

For the 2024 Summit we know that your inclusion in the event, as a sponsor, would greatly enhance the event and benefit the business community.

This is an unique opportunity for your organisation to display the services you offer to the Maitland Business community.

We look forward to hearing from you and thank you for your support.
